21 MAY 1969

19 May 1969

1100 - 1130 Dept of Justice Room 1143

Participants: ~~Jarvis~~ Leonard

Asst. Attorney General
Civil Rights Division

CIA:

Special Asst to DCI

25X1

1. Meeting arranged by DCI and 16. Purpose: To discuss cooperation ^{or} of student unrest and establish a point of contact between Justice and CIA.

2. Mr. Leonard said that he had been given overall responsibility for "civil disorders" within The Justice Department and had set up an intra-departmental committee under Mr. Devine. This committee last met four weeks ago and apparently is not very active. Mr. Leonard did say that Mr. Devine has a computer which keeps track of students engaged in campus disorders by name of student, campus and incident.

Mr. Leonard freely admitted that he is not sure how deeply the Federal Government should be involved in the problem of student unrest. He was clearly thinking in terms of what Federal policy should be concerning ^{prosecution} ~~protection~~ of dissident student, and remarked that the first step would be to have the Attorney General's instructions on this point. Mr. Leonard's greatest concern was clearly with urban rather than campus civil disturbances. He is ~~also~~ clearly concerned with what action should be taken in specific instances that he has not devoted much thought to the gathering, collation, and dissemination of information.

RO indicated that CIA's concern is with possible foreign influence in funding of and possible control over persons of organizations involved in student unrest. campus disorders
